

Shirley	Tucker	As a citizen of Pittsburgh PA, I see monopolies as menacing and mean-spirited. Freedom of speech should NEVER be awarded for financial gain!!!! Keep the internet open to all users, please. Thank you very much.
D	Tucker	I strongly object to the idea of creating a two tier internet system. Such a system will severely erode democratic institutions world-wide and must not be implemented.
Paul	Tuff	Do not allow corporate telecom titans like Verizon and Time Warner Cable to sell fast online speeds to the highest bidder, which will result in slow speeds for everyone else,
Nancy	Tulley	
Jackie	Tulli	
Mary	Tuominen	
katherine	Tupman	if you do this you will go down in history as villains as great as hitler.....
Sabriga	Turgon	
Michael	Turino	Please keep the internet free and egalitarian; no fast lane for the big boys at the expense of everyone else.
Bonnie	Turnbull	The free flow of information is the foundation of democracy.
Louisa	Turner	A two-tier internet system will benefit corporations; individual taxpayers, citizens, and other users will be at a disadvantage because the speed at which their messages travel is dependent on the volume sent by corporations. This is not fair.
Dawn-Marie	Turner	Keep the Internet free and open to all!
Diane	Turner	Our society needs to keep the internet open and accessible to everyone. Otherwise I believe we'll miss out on potential advancements in growth and thought.
David	Turner	
Kenneth	Turner	
Leaf	Turner	
Nolan	Turner	
Lisa	Turner	
Jerry	Turner	
Cara	Turner	
Teryal	Turner	When will government begin to protect everyday working families instead of doing the bidding of their corporate donors. All in the name of more profits, campaign donations and cronyism while the voices of "we the people" are not heard.
Pat	Turney	We need a free and equitable internet open to all.
John	Turngren	We need net neutrality, not favoritism to the big money.
Robert	Turoff	Time=Warner, Verizon, AT&T, etc. are gouging us more tha'n enough already. Stop them, already.
Chip	Tuthill	Keep the internet open to all providers on an equal basis. Do not let money buy the internet, as has happened with our political system
David	Tuthill	Why is the FCC pimping the public to large companies?
Will	Tuttle	Keep the internet free and fair!
Barbara	Tuttle	Prevent telecom and cable companies from having total control of internet.
Frederick	Tuttle Jr.	The mega-corps are already receiving the top tier benefits on everything from government subsidies to the Supreme Court's blessings. The rest of us in the middle and underprivileged at least deserve to keep an open and fair internet.
J. Gregory	Twain	No fast lane / slow lane schemes.
Terry	Twitchell	Keep the internet open as it works well. No fast lanes for the few. We know centralizing power in the hands of the usual suspects diminishes communication and innovation.
Katherine	Twombly	The internet should be equally accessible to everyone.
Mike+Kathy	Twomey	
Rochelle	Tyler	Be sure to vote NO to the major telecoms and their efforts to censor the internet. We don't require them or their services. Keep the internet free and unbiased.
Ruth	Tyler	The internet needs to stay neutral. Individual users should not be shunted to slower lanes--this is only being suggested for the economic benefit of a few. The many citizens of the country need some protection from large predatory companies.
richard	tyminski	
Steve	Tyndall	The internet has thrived based on complete neutrality. It doesn't matter that companies want to turn the pipes into a toll road for the companies that can pay, that isn't what the internet is about and getting rid of net neutrality will undermine the fun
Janet	Tyndall	
Miriam	Uhler	The internet needs to be equally available to all
Laverne	Uhte	At the age of 92 I can't do many things as fast as I used to and life can be very frustrating. It just wouldn't be fair if the Internet were to get any slower because of favoring the wealthier who could pay extra. It really should be a public utility.

Ms	Ulahwti (entire legal name)	We the people: invented the internet; use it daily as individuals; feel it has proven itself to be a foundation of democracy; do not want to lose out to other countries in our ability to communicate; demand net neutrality in USA!
Barry	UIman	Level the playing field for the Internet!
Ruth	Ungar	
Francine	Ungaro	
Kenneth	Unger MD	The internet was built with USA funds let's keep it a public utility.
Wayne	Upham	The Comcast and Time Warner merger does not serve the people of The United States. This is nothing more than a monopolistic move and should be denied
Heidi	Uppgaard	Net Neutrality!
Carmen	Urea Cruz	A democratic society shall keep equal rights for everyone. Communications in any way are fundamental for a plentiful life, for open and free business and freedom of expression. No privileges for anyone in the Internet world. Carmen
Eliana	Uretsky	
Sandra	Uribe	The idea that those who can pay more are entitled to greater privilege is inconsistent with democracy. It will lead to an uninformed citizenry and to greater manipulation of information. Please protect net neutrality.
Harvey	Utech	Stop adopting policies that make the big bigger and the rich richer.
Bernhard	V??lk	
Kim	Vacchiano	
Medie	Vakili	
Marsha	Valance	The airwaves should be free to all! Don't pander to the patricians!
Rhonda	Valdez	
Fay	Vale	
Alec	Valentine	The internet needs to be open, and for that FCC control is necessary. Otherwise it will be the domain if whoever can pay for it. Let's keep the internet open with more FCC control.
Karen	Valentine	There is only one way to go with this. Anything else is all about greed and short sightedness.
Jeffrey	Valentine	
Marissa	Valeri	
Marissa	Valeri	
James	Valk	
John	Valle	
Ellin	Valois	This is still one thing that belongs to the people. Keep it that way. Don't favor the wealthy and the few. NET NEUTRALITY. IS THE BASTION OF DEMOCRACY. REFUSE TO PUT A TOLL ON THE INFORMATION HIGHWAY.
Ruth	Van Anden	Telecom and cable companies must NOT control the internet in any manner.
William	Van Beckum	
Robert	Van Boemel	It is very simple: fast and slow lanes for the internet are not acceptable. They must all be the same for everyone. You know the reasons - I do not need to elaborate or repeat them here.
Chad	Van Dam	
Lesly	Van Dame	Please do not take the best things about the internet away from the public. The internet was started by a government of the people, as in ALL the people, not just the wealthy and certainly NOT corporations, so let's keep it that way.
Deneys	Van Der Westhuyzen	
Shirley	Van Deraa	
Douglas	Van Dolen	Net NEUTRALITY NOW!!!
Peter	Van Dorsten	ISPs should be regulated as carriers. Allowing them to extract profits for no added value to the end user is not in the best interests of the country. ISPs already charge users based on usage characteristics, that's sufficient.
Dona	Van Eck	Save our freedom. Save the internet. Phone companies are already making a big profit off us with use charges. Please do not make things worse. Why should corporations profit more from what others invented and are already improving? Keep fast free
Gary	Van Havermaet	We the people need REAL net neutrality and are very much against these new rules you're considering.
James	Van Hise	Charge big users for their use, but that shouldn't put them at the head of the line.
Catharina	Van Hoek	
Hoby	Van Hoose	Open internet has been under attack with increasing force lately and it's more important than ever to reverse the activities that have eroded protection so far and stop future actions that harm an open level playing field of access.

Stanley	Van Kolken	Please, keep the internet open. It now carries telephone and various other personal communications which need the same protection and regulation as telephone and public airwaves are afforded.
Natalie	Van Leekwijck	
Peter	Van Scherpe	
Jacoba	Van Sitteren	The citizens should go before the profits of a few big corporations.
Robert	Van Velkinburgh	Dear FCC, Keep the internet free from the clutches of big business. No special favors or accommodations. s.
Charles	Vanbrocklin	IMPERATIVE!
Samuel L.	Vance	It is time to get rid of this ass-hole Wheeler, and squelch his plans to give the internet to his "big business" owners!
Stefani	Vancssj	
Kenneth	Vandenberg	
Jim	Vandergriff	
Carol	Vandeveire	
Warren	Vandiver	Please don't adopt rules that would allow corporate telecom titans like Verizon and Time Warner Cable to sell fast lanes online to the highest bidder and leave us individual internet users with slower and less useful service. Thanks for your support
Mary	Vanek	Keep the information highway open.
Tom	Vanhoff	
Jill	Vaniman	
Isabell	Vanmerlin	Everything on the internet is already being monitored and recorded - where will this end? We need REAL INTERNET NEUTRALITY. Why do corporations need to "speak" faster than its human, individual members?
Cheryl	Vanni	Where is the equality in this passing? I'm so angry about this bill. It's always big money getting control over everything. I'm sick of the lack of integrity of these people. The little people are always getting screwed.
Rich	Vanore	The internet is the best marketing tool for small businesses -- if a small businesses ads are passed up in favor of big business, many small businesses will be out of business.
Rich	Vanschoelandt	I want internet access to be a level playing field. I hate the way this country gives preferential treatment to those who have already succeeded and puts those who are struggling at further disadvantage. Let all have equal internet access.
Albin	Vareha	
Barbara	Vargason	stop the Corporations and their monopolies from destroying everything!
Jim	Vaughan	Separating the speeds of access is just great for a very few people who stand to make (not earn) billions of dollars, but it will drastically reduce and degrade internet use and utility!
Kevin	Vaught	Protect net neutrality and stop the monopolistic mergers of these titans of corporate fascism.
Jesse	Vear	Net neutrality is essential to our democratic process. It should be your job to protect our open internet - where providers supply the same access to everyone equitably. Please don't allow the creation of fast lanes for our internet.
Ordell	Vee	the internet should be treated and regulated as a public utility....NO CORPORATE DOMINANCE
David	Veenstra	
Alberto	Velazquez	
Jesus	Velazquez	
Marlene	Vellinga	Do not allow big corporations to sell fast lanes on the internet. We need to keep free access to all on the same lanes, net neutrality!
Robyne	Venable	
Martha	Vennes	
Anne	Veraldi	
Marion	Verhaalen	Neutrality must be preserved on the iinternet.
Daniel	Verinder	Please protect net neutrality and technological equality.
Bruce	Vernor	I believe net neutrality is a desirable and preferable way to run the internet. Some should not have an advantage over the many.
George	Veronis	
Sakura	Vesely	
Paul	Vesper	
Marty	Vetrano	Keep trying to control information, and stay in the pathetic rut you've created. You cant control information flow. The kids will always find their way to whatever you withhold. Look at your own kids? What do they do when you tell them X is not for them?
John	Viacrucis	What you're proposing would forever damage the Internet. It would also undermine Net Neutrality. I urge you to reject the proposal, and preserve Net Neutrality, the foundation of the Internet.

Patricia	Victour	Corporations are on the march to take over absolutely everything from regular people. Now they want our internet, which was developed by the government but usurped by private companies, as has everything else. Real people say NO! Save net neutrality.
Cecelia	Vidmar	I am disgusted that you are even thinking of taking away net neutrality in favor of the Big Money companies. How could you do this to the vast majority who cannot afford the high prices that will be charged for higher service.?
Cecelia	Vidmar	Please don't do this dastardly thing, elect for MONEY to override the good of the people. Whose side are you on, BIG MONEY, or the common good?
Molly	Vieg	
Richard	Vieth	No two-tier set-up on the internet. No sale of hi-speed to those who can pay for it.
Linda	Vietz	
Tony	Vigue	Many of the 5,000 PEG stations in the US use the internet to move video files from their point of origin to the point of distribution to the cable operator and streaming to the internet. Extra charges based on content would prevent us from doing this.
Sydney	Vilen	As a low income, disabled senior with mobility problems, I depend on the free, open internet for my entire life. It is all I have for news, entertainment, etc. Don't end it.
Bartolo	Villa-McDowell	
Sidonie	Villere	We need REAL net neutrality.
Michael	Villines	I would highly suggest you focus on the needs of the people and not the giant telecoms, as this is the right thing to be doing.....being a public servant and all...
Judith	Vincent	Everyone should have equal access to the internet. These corporations have too much power (and by power I mean money) now. Stopped giving these greedy organizations more power over the people of this nation.
Paula	Vincent-Cowan	Freedom of speech is a constitutional right since when do telecom and cable companies get to decide what we say or see online. This is a travesty should it be instituted and would bring us one step closer to living in a world without freedom.
Carolyn	Vindum	
Martha	Vinson	No to fast lanes for the few. Fast lanes for all. Equality for all. That is what our President called for at the beginning of his Presidency. The rich shall not inherit the fast lane.
John	Vinson	
T.	Vivar	What we need is REAL net neutrality
George	Viveiros	
Frank	Vochatzer	
Anita	Vogel	Keep the Internet open --- equality for all with no restrictions!
Nathan	Vogel	This is our INTERNET! Please keep it FREE and support REAL NET NEUTRALITY, thanks =)
Andrew	Voight	My mom works for a non-profit. If the internet does not stay a utility, able to be used by everyone at the same level, then she won't be able to do her job as well as she does now and fewer people will be helped by her church.
James	Voigt	
joyce	volant	
P	Volkert	
James	Vollaro	Do not adopt rules that would allow telecom companies to sell fast lanes online to the highest bidder. This would confine alternative, independent, and non-profit voices to the second tier.
Ginger	Vollmar	We need to protect real net neutrality. Big corporations shouldn't control who gets to use the fastest internet lanes just because they have lots of money.
Joe	Volpe	keep the internet the way it is! we need Real net neutrality. do not change it.
Peter	Von Chhristierson	FCC is to protect citizens, not corporations. One lane only.
Michele	Von Kampen	
David	Von Schack	
Theodore	Vonbartheld	The Government is into too much NOW that has cost the People of this Country a lot of their rights and Freedoms already and as for Companies to be able to tie up the internet is too much it is one of the last things that we have. DO NOT DO THIS!
Jack	Vongerichten	
William	Voorhies	Fast lanes for the few? We think not, thank you! We highly favor fast lanes for all!!
Tom	Vosik	
Deborah	Voves	Please keep the internet the way it is. Net neutrality is fair and it is essential.
Paul	Voytas	
Richard	Vreeland	reclassify the Internet Under Title II as a Common Carrier
Pierre	Vuilleumier	So corporations are not only persons, but they are persons with more rights than actual people.
Kathy	Waddell	The content on the internet should remain free.
Daniel	Waddell	

Evelyn	Waddell	
William	Wade	Don't go there, please; it's a slippery slope to degrading the people's internet.
Cecil	Wade	
Marcia	Wade	
John	Wadsworth	
Mary	Waetjen	
Hillary	Wagner	It is disgusting that this bill has made it this far. Open it to general election.
Karen	Wagner	The internet is democratic. A small and large business can have the same opportunities. Please do not implement this undemocratic change that would create an oligarchy. Let the companies work harder to create a better site.
Vickie	Wagner	There is nothing "broken" about our system. Please, a "faster" lane for mega corporations will result in a slower lane for everyone else.
Joanne	Wagner	
Art	Wagner	
kenneth	Wagstaff	Keep Internet access equal! Democracy must prevail!
Parwez	Wahid	
Maude	Wahlman	
Owen	Waite	If the FCC moves forward, it could be harder for everyday citizens to access blog and social media tools. We'll have a two-tiered internet, which is the OPPOSITE of what a democracy stands for.
John	Waite	One internet; one information highway open to all.
Marjorie	Waite	With so many outrageous costs and difficulties to the general populations, is this another way for them to be shut out? Are profits looking so low the FCC CEOs may not be able to make their usual multi million dollar salaries this year? Try the real world
Benjamin	Wakely	Everybody knows that this is a bad idea and will lead to less freedom for individuals and more power for corporations over those people. Don't listen to money, listen to what is right and true.
Aloysius	Wald	NO TWO TIERED SYSTEM. No preferential treatment for the wealthy and corporations. PERIOD!
Thomas	Walden	I am so grateful that more and more Americans are waking up to the schemes of the elite. Attempts at throttling the internet to squeeze more blood out of the citizens of this country will prove to be counter-productive to their agenda.
Richard	Waldo	
Anna Balas	Waldron	Those of us who travel for business abroad know that internet service is MUCH cheaper, faster and more reliable in Western Europe. And it is because no large corporations can have their way at public expense. Please protect OUR internet!
Anita	Wald-Tuttle	
Robert	Wale	The concept of King and vassals was rejected as an unacceptable basis for democracy. Now you are considering yet another way of creating a regal system by selling off the inherent equalities of our democratic society to those who model themselves as Kings
Troy	Walker	Don't fix something that is far from broken
Brian	Walker	I believe having these networks to heavily controlled by corporations is a bad policy in general. A corporation will levy their service to feed their bottom line and/or their corporate agenda, even if that means censorship.
Sharon	Walker	If the net goes down then I for one will not pay for the use.
Donna	Walker	Keep the Internet available to everyone!
Sarah	Walker	Keep the internet public, open, and free!
Yvette	Walker	The citizens of the U.S. should be able to enjoy the privileges of a democratic and free society and that includes internet neutrality. Quit treating corporations as the citizens, they are not human.
Steven	Walker	The People Need REAL Net Neutrality..
Gregory	Walker	
Jerry	Walker	
Sandra	Walker	
Tyler	Walker	
Wendy	Walker	
David	Walker	
Molly	Walker	
Diana	Walkup	Protect the internet for everyone. Cable companies are charging ever increasing rates for access to television programming and internet services. Do not create tiers of customers, where those that can pay higher fees receive faster, more reliable service
Teresa	Wall	
Katie	Wallace	Don't let the rich corporations of America privatize and control the Internet - it's meant to be a PUBLIC utility.

Tim	Wallace	Having a successful democracy requires the free flow of information. Allowing the creation of fast lanes interferes with that need and puts even more power in the hands of established, rich corporations and disadvantages new ideas and dissenting views.
William	Wallace	The internet is a national resource that should be equally accessible to everyone, not just another revenue stream for wealthy corporations at the expense of everyone else.
Edward	Wallace	
Bruce	Wallace	
Shirley	Wallack	This is supposed to be a democracy, not a country in which only rich people get to access the internet efficiently. Give us real net neutrality.
Gregory	Wallen	There should be no favorites when it comes to the flow of information.
Diane	Walls	leave the internet as it is..... do not let anyone control what i see and say online
Susan	Walp	Everybody should have equal access to the internet.
Barbara	Walrafen	
Michael	Walraven	
Marie	Walsh	As usual of today, the wealthy are controlling access to everything: economic, political, social. communications. When do ordinary people have a chance to hear their voice heard?
Tom	Walsh	do not open up the gates on this one, keep the 'net as is
Jim Walsh	WALSH	Don't let the corporations take over the internet!!
Jeffery	Walsh	Just as the broadcast airwaves belong to the commons so should broadband internet access. Corporate monopoly should not be allowed to usurp control of what should and must be a public resource, unfettered by commercial interests.
Rhoda	Walsh	NO SLOW LANES!
Kevin	Walsh	Stand up for people and common sense for gods sake!?!
Sara	Walsh	
Bill	Walsh	
Deborah	Walsh	
Elizabeth	Walter-Echols	
Charles	Walters	Dear FCC: Please leave the internet as is and dp not set up for the rich to have a different access that the average America can have or afford. Thank you!
Mary Barbara	Walters	I spend a good part of my day on the internet. I am working on my family history and following current events. It is very important to me that we retain net neutrality.
Sandra	Walters	
Elizabeth C.	Walters	
Patricia	Walters	
Jeff	Walton	
Bill	Walton	
John	Walton	
Edward	Walzer	
Ruth	Wapato	
William	Warburton	
Marvin J.	Ward	Access to the Internet should be equal for all w/o any privileges or privileged users.
Ken	Ward	Don't sell us common folks out to the mega-corporations.
steve	ward	It's difficult to resist large corporate interests who have purchased your bosses through political contributions but you have an ethical duty to the country. . Do the right thing and stand against this assault on the free flow of information.
Alan	Ward	Leave the internet alone there is already too much for profit b.s. as it is.
Holly	Ward	The FCC is for the people--not rich companies. Please protect our rights.
Katherine S.	Ward	The US is a great country. Our freedoms set us apart. One freedom individuals have is quick and easy use of the Internet. Let's not hamper the free flow of information among our citizens and become second-rate.
Michael	Ward	
Diana Powell	Ward	We desperately need to retain net neutrality for all people who use the Internet. That is the only fair way to keep the system on target as a major communication media for all, regardless of their Internet providers.
beth	warichak	
Tom	Wark	These are PUBLIC transmissions and the Internet should be regulated as a public utility. We've had enough inequality in this country: NO FAST LANES for big telecom and cable companies unless EVERYONE GETS FAST LANES.
Vearla	Warner	I'm tired of these "BIG" business assns. taking over. Please don't let them pay someone under the table to get their way.

Ron	Warner	It's very simple. If we want entrepreneurial activity in the USA creating new businesses, we need net neutrality. If we want new transformative businesses created in other countries, let our internet be controlled by big businesses like cable companies.
Colleen	Warner	Please do NOT allow corporations to take control of the internet. Keep net neutrality so that we are all on a level playing field. The internet is probably one of the last places where we are all equal. Please keep it that way.
Darryl	Warner	THE INTERNET MUST REMAIN FREE OPEN AND INDEPENDENT.
Harriet	Warner	
Virginia	Warner	
Thomas	Warner	
Chris	Warner	We know there's no cost to this. Don't sell us a bill of goods. Please do the right thing for our democracy and keep fast lanes out of the picture. Keep access to information open and free from obstacles.
Seth	Warner	We need real net neutrality
Stephen	Warner	What country would you like to live in- the USA or Russia? If you answered the USA then please keep the internet neutral.
Deborah	Warot	Everyone deserves equal access to the internet! 'Fast Lanes' would allow those with deep pockets to control the internet and have their sites, and viewpoints have a predominant voice. Please do not let this happen.
Kay	Warren	An open internet. No less.
Alicie	Warren	Designate the internet as a public utility which it TRULY IS! That is the only way. High rollers & wealthy corporations should not have priority for net usage.
Craig	Warren	Please DO NOT create a rule that would create another inequality in American Society.
Diane	Warren	The 1% has enough advantages. Keep our internet free to promote real democracy!
A R	Warren	The internet should be for everyone without control from anyone. It is our 1st amendment rights, remember we the taxpayer are the one who are paying your wages, not the corporations.
Ronald	Warren	
Arpana	Warren	
Diane	Wartburg O'Malley	Please protect free speech on the internet. Resist the pressure to monitor internet communications and content like the Chinese government. This is America and too many veterans have died or have been wounded fighting to preserve our freedoms.
Lorene	Wartick	
Norma	Washburn	I hope (for once) the "fat cats" don't rule. Restore my belief in government by not letting this go forth (as expected).
Jeff	Washburn	Keep the internet open and free for all.
James	Washburn	Please keep the net neutral!
Steven	Washburn	Stop the fast lane for the few, and quit choosing the corporations over the people. It's the people's Internet...not just the giant telecoms.
Valerie	Wasson	
Selden	Wasson	
Michalina	Wasung	
Dutch	Watazychn	Get on the people's side for a change not the corporations.
Randy	Waters	
Jeff	Waters	Why is the Fed Government going to let those Big Corporation do as they feel. It open air wave they are trying to said they own. Telling you what to say and do on the internet.
Leah	Waterworth	
Kathryn	Watkins	Please do not allow Verizon and Comcast to control the internet. I can barely afford my internet service now. These monopolies should not be allowed to steal the Internet which was started with public funds. We have enough inequality in our country.
Rebecca	Watkins	The Internet has changed my way of life for the better. Every bit of the internet should remain available to all users equally, not sold off to the highest bidders who will just turn around and charge me more for it.
Richard	Watson	leave the internet alone...freedom of thought...freedom of speech....
Ora	Watson	The internet has allowed access to information in an easy and efficient manner. It is not in the best interest of everyone to allow the rich and powerful the highest level of access to the internet at the expense of the rest of the population of users.
Diane	Watson	The Internet is a valuable tool for retrieving information, for running our businesses and doing our jobs. Please protect it for every citizen instead of allowing the rich to control its destiny while making the rest of us suffer. Thanks.
Christopher	Watson	
Leeza	Watstein	Net neutrality please. No fast lanes or special accommodations for corporations, please.

Nona	Watt	Here is another movement to separate haves from have nots. Where will it end? Why would FCC be opposed to "NET" neutrality?
Nancy	Watts	Broadband is too slow in USA. AT&T has a monopoly. No one is putting in new fiber lines?@! Other countries are much faster than we are.... Do not let a privileged few have a super highway while the poor wait.
Patricia	Watts	
Susan	Watts	
Keith	Wauchope	The internet should operate equally for all Americans. By creating fast lanes for the financial elites, not only will the rest of us be left in the dust, the TelComs will find ways to charge more.
Scott	Wavra	
Todd	Waymon	Keep commercial hands off the Internet! It is Open medium - like the AIR.
James	Waytt	
Kathleen	Weaver	
Gary	Webb	Big corporations already control most of this country. Please don't let them control the internet, too!! The Internet has been one of the last bastions of freedom and equality.
Linda	Webb	Please keep the internet equally accessible to everyone.
Don	Webb	The internet works only because all have equal access. If only the rich have control of the information it become just one more corporate propaganda machine. That no one will believe.
Kristin	Webb	
John	Webb	
Bonnie	Webber	As a user of the Internet since it was born as the ARPAnet in the late 1960s - early 1970s, I know the importance of vastly broadening EQUAL ACCESS. Keep Net Neutrality!
Holly	Webber	
Bonnie	Weber	Do the right thing!
Mark	Weber	
Susan	Weber	
Evan	Weber	
George	Weber	
Jesse	Wechsler	
Robert	Wedemeyer	This is a democracy?
Eldon	Wedlock	I do NOT want 'lanes;' deem the internet a public utility!
Ardeth L.	Weed	
Shawn	Weedman	
Beverly J	Weeks	Please protect net neutrality so that our internet remains open and accessible to all, with no favoritism to those with deep pockets. Free flow of information and ideas is essential for our democracy.
Rudi	Weeks	we need REAL net neutrality.
Martha	Weesner	Net neutrality is so very important for all of us! Martha Weesner San Diego
Amir	Weg	
mary	wehking	
Karen	Wehrman	Net neutrality is critical in a democratic society.
Steve	Weick	This proposal destroys the openness that is essential to continued growth in the value of the internet.
Christopher	Weikart	
Ray	Weil	The internet is a public good. The band width is public and allocated by auction, but access must always be even for everyone. Let providers set some limits on bandwidth use, yes....but dont start a multi-tier system of 1st
Sarah	Weil	
Barbara	Weinbaum	Democracy is damaged when the big guys, just because they have more money and can set their own rules, push the little guys to the back of the bus,j
Ron	Weinberg	
Henry	Weinberg	
Georgia	Weiner	Don't let us lose net neutrality.
Linda	Weiner	
Nona	Weiner	
Larry	Weingart	
David	Weinhardt	
Myrna	Weinman	Keep government out of the Internet. Focus on the economy, foreign affairs, the environment AND supporting this president !
Bob	Weinstein	Please, don't give the the big bullies the right to tell us what we can and cannot see on the net. Thank you, Bob and Leslie Weinstein
Jason	Weinstock	

Hal	Weinstock	
Nancy	Weir	Monopoly says it.
Louise	Weir	
a	weir	
Joe	Weis	
Laura	Weisberg	Stop inequality on the Internet
Jody	Weisenfeld	The internet must remain neutral and fair to all. To create fast lanes that are paid for punishes those without big purses. We all use this tool. Please protect net neutrality.
Barbara	Weiser	
Steven	Weisfield	
Larry	Weisgal	
Lynne	Weiske	
Steve	Weiss	
Carol	Weiss	
Daniel	Weissglass	these are my thoughts
Allan	Weissman	Do the right thing Mr. Wheeler! You'll still be able to work in the telecom industry after your FCC stint, and know you worked for the public good.
Christopher	Weixler	We need real net neutrality! Protect the citizens, not the large corporations.
N	Welch	Reclassify the internet as suggested in the court proceedings ...Per your bosses and the true owners of the internet. We the People. We paid for its R/D and were not giving it to corporate parasites. It is part of the Peoples commons.
Evangeline	Welch	
Phoenicia	Welch	
Susan	Weldon	The public needs to retain the integrity of net neutrality, to save something that belongs to all from being the money-maker for just a well-heeled few.
Marilyn	Welker	Free speech is free speech! Given mega corporations more control over our access to communications is wrong! We need real net neutrality.
Richard	Welker	I am a Verizon customer because in my state of New Mexico, they have best rural coverage. To me it is absolutely clear that they are a public utility and have no right to regulate the internet to fast and slow lanes. Do not further enrich the 1%.
P.	Welland	Free speech is not for sale and the internet is the main modality used for speech in America. No corporation has the right to sell this right to the highest bidder. Net neutrality must be preserved.
Charles	Wellen	I pay rather heavily for internet service, I should get all that the internet provides for my money. As a broader issue, the internet is the greatest advance for free speech in history. We the People should keep it that way.
Nic	Wellington	Please preserve net neutrality.
Larry	Wellington	
J Stuart	Wells	Do not give those with deep pockets the ability to regulate the speed of the internet to their advantage. Keep it free for all.
Sandra	Wells	put all of us in the fast lane -- come on -- DO THE RIGHT THING ---- stop allowing money to buy anything and everything
Stephen	Wells	This is an outrage against free speech. Please keep the internet playing field level for all new comers. Anything less will cripple peoples ability to express their beliefs and bar entrepreneurs from having access to the resources they need to innovate.
Bill	Wells	
Phil	Wells	
Jeff	Wells	
Bob	Wells	Without WE The People the Internet is nothing but useless 0000's and 11111's. Our Taxes funded it's origination and our Dollars and support ar what gives it value.
rebecca	welna	
Duane	Welsch	
Jessica	Welsh	Comcast is behind this. They already monopolize the internet for an astronomical price for faster needed speed. This new bill only allows them to lock out competition and raise prices even more which is unfair because most can't afford it.
Nancy	Welsh	
Roberta	Welte	The internet is a tool that allows everyone - regardless of means, gender, race - equal access to information and ideas. It can be used for good or ill but it should not be allowed to become only a tool of those who can pay the most. Please.
Scott	Wendholt	I am strongly opposed to pay for bandwidth. Will watch the politics involved.
Beverly	Wendling	
Carolyn	Weng	Design a system providing real net neutrality, not one where only wealth can put you in the fast lane. The internet is a utility which all need to use.

Judy	Wenning	
Angela	Werneke	An open internet represents democratic values, freedom of speech, and freedom of information in an age when media is corporately owned and information is either suppressed or manipulated for media owners' agendas. Save the internet from telecom control!
Ruth	Werner	No to FCC favoring big carriers! Protect the consumer!
Ed	Werth	
Martha	Wesley	
Nanci	Wesling	The internet should be equal for everyone. The rich get enough perks without dumbing down the internet for the rest of us. And corporations (who aren't people on their best day) get enough breaks as it is. Save the internet for the little people!
Margaret	Wessels	
Lenore	West	I live in a rural area where cell service is better than it used to be, but can be slow or unavailable. No high speed internet, broadband, DSL here, though my bill is over \$150. I use my iPhone for everything. We need to catch up to other countries.
Steve	West	money should not be the driver on everything - the Internet is one.
Rob	West	
R.A.L.	West	
Debi	West	
Marla	West	We need real net neutrality.
Judith	Wester	We need REAL net neutrality! We are supposed to be a FREE nation and cable companies shouldn't have control over the internet!
Tammy	Westerman	
James	Westin	One speed: regulate as utility.
Anthony	Westman	
Lynne	Westmoreland	Net neutrality is one of the few mediums left that help to level the playing field. As an online teacher for a non-profit it is imperative that I have quick and complete access to all that is available on the internet.
Dale	Weston	The multiple billions of profits currently 'earned' is not enough??? Free markets supposedly favor those with a 'better mousetrap' and not those who buy favorable policy. The pledge of 'Liberty and Justice for all' mandates net neutrality
Marjorie	Westphal	IT is important that the Internet which was developed with Government Money be equally available to all Taxpayers
Nicole	Westre	
Steve	Wexler	Net Neutrality is an absolute; "mostly neutral" isn't neutral!
Eric	Wexler	
Mike	Weyand	
Susan	Whalen-Sanders	
Richard	Whaley	We need teal net neutrality.
Preston	Wheaton	The internet was developed by the government and belongs to citizens; not corporations trying to make money off what citizens already own.
Hank	Wheeler	Are corporations the only "people" left in this faux democracy? The living breathing individual human being needs to be heard. He and she is all of us collectively.
Eric	Wheeler	
Nancy	Wheeler	
Dave	Wheelock	This is a(nother) watershed moment in communications history. Will the FCC commissioners go down in history as supporting corporate interests or those of the people?
Noreen	Wheller	
Judith	Whipple	The internet is a public utility. The FCC needs to take a strong position to protect its neutrality as a public good. The FCC must not allow half-measures which sacrifice equal internet access to the profit motive.
Vernon	Whipple	
Hattie	Whisenant	Please keep the Net Neutral!
Joan	Whitaker	
Maria	Whitaker	
Greg	Whitaket	The internet is the single most powerful tool average citizens have access to which allows us to gather and act as a single global community. It's a public utility not a commercial property.
Johannah	White	Dear FCC, I am a librarian; I see everyday what great access to information does for Americans--it educates, enlightens, and uplifts. Please keep this as a free and equal resource for all of us!!
Cristina	White	Do not relegate the American public to a slow lane on the Internet while allowing the richest companies fast lanes. We need REAL NET NEUTRALITY. Without it our democracy, our society, and true innovation will suffer.
Patricia S	White	For the sake of so many of us in the middle class, keep the internet playing field level!!!

Martha	White	Hands off the Internet! Tell the greedy and power-hungry telecom and cable companies that the Internet is not for sale to them!
Patricia	White	How about allowing the internet playing field to stay level for the benefit of small businesses like the one I run? Let's keep the internet for the rest of us--small businesses, organizations and individuals-- not just the interests of huge companies.
Judy	White	I already pay to access the internet. I am not going to pay more to wealthy corporations can pick and choose what I have access to.
Harold	White	I think I will give up my internet if that happens.
Ellie	White	I urge you to keep the internet from being controlled by large corporations by selling them fast lanes. Everyone should have free access, that is what the internet is all about.
Susan	White	I use the internet to teach for two colleges, how are going to justify who gets to use the internet for education? What is it that you are trying to do, make it so difficult for people to use the internet? How is that going to improve the economy also?
Jon	White	If the Internet ceases to be truly neutral we all lose. It will be like granting admission to the Grand Canyon based solely upon wealth.
David	White	Internet content access and performance should not be controlled by commercial interests. The performance of the network should not be sold to the highest bidders. Doing so will limit competition and increase the divide between rich and poor
A.E.	White	Stop discriminating.
Mary	White	The internet should be treated as a public utility. It was started largely with public money, and continues to be supported with public money. It should operate in the public interest.
Tim	White	
Aurora	White	
Nathan	White	
Jennifer	White	
Kenneth	White	
Jeffrey	White	
Warren	White	
Derwin	White	
Mark	White	We need REAL net neutrality - as DARPA intended. Not to be used by the highest bidder. Enough of the special interests.
Mariama	White-Hammond	The internet should be open and equal for all. If the FCC makes this choice it will be weakening the internet. Please do the right thing for our democracy.
Jim	Whitehead	Stop playing games and run the government as it was meant to be run. And it surely wasn't in the best interest of corporate whores like Comcast and Verizon.
Katy	Whitehouse	The only people that will suffer are the people that need internet. Greed from companies will destroy one of the best ways to get information, learn, and explore anything that comes to mind.
Allan	Whitesel	
Paul	Whiting	Please support Net Neutrality by Classifying Internet Providers as "Common Carriers."
Basil	Whiting	The world is too dominated now by those with deep pockets. A one-tier internet is a basic democratic institution reflecting and fostering democratic values. Don't modify that!
Bill	Whitlock	THE INTERNET IS NOT A BROADCAST MEDIUM up for SALE like you've made the AIRWAVES. Let the folks who want to hog the bandwidth with TV content and Movies do it the way it's always been done!!
Diane	Whitman	You KNOW in your hearts that this move is WRONG and goes against the best interests of those who REALLY own the airwaves/internet--the American PUBLIC!!! DON'T DO THIS!!!
Joe	Whitmore Jr	
Alan	Whitney	
Maynard	Whitney	
Jonathan	Whitney	
Cynthia	Whitstone	
Leroy	Whittaker	We have seen a beautiful explosion of information across the internet and across the world available to all who have access. Knowledge freely shared. Let's not go backwards by corrupting that.
Keith	Whitton	The government does not have a right to regulate the internet in any manner.
Karen	Wible	
Eric	Wickiser	
Melissa	Widitor	
Jared	Widman	
Tobey	Wiebe	We oppose a two-tiered system.
Victoria	Wierig	

Michael	Wiernicki	The internet is not working well enough now? You need to F**K with it so the telecoms can make more money?
Jenny	Wiersba	The internet is one of the last vital public resources that actually is free and equitably accessible for all people. Please keep it that way! Thank you!!
Carolyn	Wierson	This seems another money grabbing way to stick the middle class.
Jon	Wiesel	
Inge	Wiesen	
Ludmilla	Wightman	
Kenneth	Wik	Keep the internet a level ground for all. Don't sell out!
Victoria	Wikle	Don't despoil the commons.
John	Wilborn	The internet is a public, not private, venue for the free expression of speech. It should be regulated as a public utility and there should be no difference in the treatment of users.
Margaret	Wilbur	No fast lane for the elite! keep Net Neutrality!
James	Wilbur	The internet is a social good as it exists now. To allow for profit companies to dominate by use of "fast lanes" would bastardize the whole system. Shame on you for even considering such an abomination.
Richard	Wilcox	I support real net neutrality where everyone is treated equal.
Robert	Wilcox	Let's keep internet access open and even to all.
Dorothy J	Wilcox	To place this in the hands of any corporation or in the hands of a few businesses is LIKE SELLING the FREEDOM of SPEECH !!
Kathie	Wilder	
Ron	Wildt	The internet needs to remain free and open. Please keep it that way.
Saul	Wilen	OUTRAGEOUS!
Debra	Wilensky	Keep free and equal access to the internet
Brian	Wiles	
Donald	Wiley	Gov ruled by the rich is not in the constitution. And I know we the people, don't vote leaders in to turn their backs on us by being puppets for the rich.
David	Wiley	
Wendy	Wiley	
Janice	Wilfing	We need REAL net neutrality so that nonprofit and independent voices can be heard.
Donald	Wilguss	LEAVE THE INTERNET ALONE!!!!!!!!!!!!!!
Roland	Wilhelmy	
James	Wilkes	Please, keep the internet neutral. Be an advocate of the people!
Michael	Wilkins	Keep net neutrality. Say no to the corporate masters.
Mary	Wilkinson	Big money is in control of too much. Please let the little guy have the freedom of the Internet.
Daniel	Wilkinson	
Susan	Wilkinson-Bacchi	
Belinda	Wilks	Don't the Corporations control enough as it is?
Robert	Wilks	
James	Will	Our democratic society requires equal opportunity for all citizens to communicate using our modern means provided by the internet. Do not facilitate some while discriminating against others.
Phil	Willen	The net belongs to the people!
Sally	Willett	No more taxpayer abuse. We bailout wolves on wall street. We allow big money to own our government. The government is no longer a government, it's a circus. We The People have no civil rights but We The Corporations do. Sick of this.
Fuqua	William	
Morris	Williams	I believe that the open internet is the key not only to our continued economic prosperity, but also to the growing understanding of human society and the natural world. Allowing ISPs to control our access to the internet is not in our national interest.
Sally	Williams	It is already difficult to access the Net in rural Maine. Don't make it slower for the poor whom we want to get up to speed to help them get jobs, stay connected, and boost the economy.
Jayna	Williams	Please don't create a tiered internet system that favors the wealthy. I make only \$823 om social security a month and can't afford the high prices of internet costs and the internet is my only form of entertainment. And there are millions like me.
Jeaneane	Williams	Surely we cannot construe equality designed for all people to the point that it applies unequally to people vs corporations. America is a nation of first and foremost people -- they deserve the right to equal time at equal cost on the internet.
Oliver	Williams	Telecom companies did NOTHING to develop the internet. Now they want to control and exploit it for their own gain only. Communication between all users will be compromised for profit ONLY by a few..

Richard	Williams	The internet has developed into a huge, open, free way for the world to exchange information of all kinds which fits into the US constitution guarantee of free speech as well as the concept of everyone has equal rights and worth. Say NO to the greedy.
J.	Williams	The internet is a public utility and should be regulated to ensure everyone is treated equally.
Robert	Williams	The term 'net neutrality' is hard to comprehend. There needs to be more detailed discussion of this idea and how the FCC should act to deter the big providers from taking advantage of the small users.
Anna	Williams	There is NO good reason for the telecom and cable companies to take control over the Internet. There reasons are purely for their financial profit. The Internet needs the FCC to do what is right--PRESERVE NET NEUTRALITY. Thank you. AW
Brian	Williams	These big corporations didn't invent or build the internet . . . so they don't get to be the toll keepers on it! They are making fair money on it as it is now, and the free flow of information and innovation is NOT impeded. NO to the takeover!
Donald	Williams	
Mary	Williams	
Don	Williams	
Loree	Williams	
Mark	Williams	
George	Williams	
S. E.	Williams	
Jane	Williams	
David	Williams	
Diane	Williams	We need REAL net neutrality, not privilege (AGAIN) for the wealthy.
Joanne	Williams	We need real net neutrality.
Kathleen	Williams	You have the power to keep net neutrality. Please do it!
Sharrhan	Williamson	I am a low income visual artist. I use the Internet daily to communicate with my friends and stay abreast of news, and it is where I create my digital artwork. I am concerned that the loss of Internet equality will directly impact my artistic options.
Sonja	Williamson	
Helen	Williamson	Who owns the air and the air waves? Who owns access to information being disseminated through the air and space? How about "we the People" ?
Jenny	Willingter	
Melanie	Willis	I don't make enough money for a bidding war. I'd have to cancel my internet.
Sharon	Willmann	The people of this country need an open internet with the same access as the rich and large corporations. Obama promised us that. Our politics and much of our nation have been taken control of by the rich. LEAVE OUR INTERNET ALONE!!
Beth	Wills	There is already enough inequality in this country. Money does not equal speech - we need to hear from the dissenters as well as the fat cat media companies.
James	Willsey	
Brian	Willson	Protect Net Neutrality. Fast lane is really just a slow lane for everyone else. Unless the slow lane can be 1gb/sec download/upload to all web locations across the world. Thank you.
Ann	Wilmer	If the FCC adopts rules that would allow corporate telecom titans like Verizon and Time Warner Cable to sell fast lanes to the highest bidder. Fast lanes for some mean slow lanes for everyone else. Not acceptable.
Charles	Wilmoth	
Linda	Wilscam	
Frank	Wilsey	
Helengene	Wilson	Ahhh come on, leave it alone.
Marylor	Wilson	I know this is a bad proposal for all who would be affected except for a much smaller number of telecom officials and stock holders. I urge you to dismiss this proposal. --Marylor Wilson
Jb	Wilson	Internet access is an equal-access public service like telephone. It should be separated from content providers.
Pete	Wilson	Net neutrality is critical to maintaining a free and open Internet. And any rule allowing telecom companies to set up special "fast lanes" for content providers willing to pay for the privilege would be devastating to that principle.
Dina	Wilson	Please do not allow the internet to become a place of different levels of privilege. Everyone must have equal access! Thank you.
Max	Wilson	Please think about the people you serve, including average Americans and preserve the internet for them!
Kent	Wilson	The internet is a utility and should be regulated as such.
Carol	Wilson	
Joan	Wilson	

David	Wilson	
James	Wilson	
Thomas	Wilson	
Susan	Wilson	
Albert	Wilson	
Diana	Wilson	
Scott	Wilson	We need REAL net neutrality. No one should be getting "fast lanes".
William	Winburn	Do the right thing for the American people and for future innovation - classify the internet as a utility.
Herbert	Windel	
Ken	Windrum	
Ivan	Winegar	
Marvin	Wines	Keep these corporate clowns (probably foreign owned) away from the FCC and Amateur Radio. We have enough problems already.
Patricia	Winkelmayer	
Linda	Winkler	When compared to other countries the US has much slower and EXPENSIVE internet providers. Fast lanes will mean higher costs to consumers and a wind-fall for corporations ALREADY MAKING RECORD PROFITS. The internet should be declared a COMMONS.
Sylvia	Winner	
Chet	Winney	Please give us real net neutrality. All of us need to do what is best for the people...
Betty	Winoltz	Equity is America's middle name. Getting rid of Net Neutrality is un-American.
Paige	Winslett	Please keep a level playing field for all. No "fast lane" for some, leaving some of us permanently in the "slow lane."
Katherine	Winslow	As librarian at a small college, we and our students rely on high-speed Internet access to get the information we need. Please do not allow large corporations to sell fast access to the highest bidder and reduce our access.
James Franklin	Winslow	Money has already corrupted so many aspects of this country and world. Please do not allow business to own better connections to the Internet, as well.
Donna	Winslow-Arnove	
Vi	Winstrom	
Donna	Winter	I pray that those making FCC decisions are not getting paid so much by the wealthy that they forget they are also responsible for the well being of the common folk.
Herbert	Winter	We need net neutrality - keep it!
Clyde	Winter	We the people need government that is of, by, and for the people, instead of government that is by and for the corporations and the super-rich. Corporations now control both political parties, and all three branches of government.
Rose	Winters	
Leanne	Winters	
M.	Wire	
Margaret	Wise	The internet should serve all citizens equally. Please see that no entity/person gets unfair advantages or suffers disadvantages. It's the American way.
Barbara	Wise	This whole idea of "fast lanes" is RIDICULOUS! Since when should corporations with a vested interest in this scheme be allowed to influence policy? We need real net neutrality!
Dorothy	Wise	
Malia	Wise	
Robert	Wiseman	Special interests already dominate public dialogue to a dangerous extent. Don't let them drown us out on the Internet, too - vote down the "fast lane" plan!
Wayne	Wiseman	The only reason the internet works is because of free open access to ALL of the content. The telecom giants already control our television and radio, keep the internet an open, equal forum for all.
Julie A.	Wiseman	
Tiffany	Wishart	
Shirley	Wishingrad	
Robert	Wist	
Susan	Witkovsky	
Hazel	Witte	It is important to keep the internet open. To do otherwise is a threat to democracy.
Bob	Witter	
Wendy	Wittl	Everyone needs true internet neutrality. It is a work tool for most people - to greater or lesser degree.

Jean	Wittman	Net neutrality is vital for education. Increasingly our students use online materials in lieu of textbooks and for research and other projects. For these uses as well as personal uses, money should not determine what we can see or say online.
William	Wittmann	
suzanne	wittmann	
David	Wittmer	Internet knowledge and communication access/speed should not be sold to high bidders\$\$\$ Save the middle class!
	wj Fleming4	The internet is a common carrier. Allow no special privileges for the telecom giants.
Douglas	Wobbema	Save it for the regular guys.
Catherine	Wochna	
Marc	Woerschling	The internet should be neutral. It should not favor large corporations over individual users.
Kirby	Wohlander	
Gail	Wolcott	
Barbara	Wolcott	
Joe	Wolcott	
Mary	Wold	please preserve net neutrality!
Guy	Wolf	I can't even get high speed internet now! Why? Because the providers have no real desire to provide service to rural areas. It's already a major rip-off, we are being left on the fringes for their financial gain.
Rachel	Wolf	
todd	wolf	
David	Wolfberg	Common Carrier! This is the infrastructure for our new economy. Why would you privatize it? Common Carrier please. Thank you.
Dick	Wolfe	Please do not take away what we have gained in our use of the internet. We can't continue to let big corporations control our lives.
Lorena	Wolfe	
Margaret	Wolfe	
David	Wolfe	
Ellen	Wolfe	
Barry	Wolfer	
C	Wolff	another corporate monopoly??? corporate greed.
Michael	Wolff	
DENNIS	WOLFF	
A.	Wolfthal	
Dorothy	Wolking	
A	Woll	The Internet must be as neutral as all other communication channels! If the highest bidder can buy domination, it will be as wrong as if the telemarketers were allowed to dominate our phone lines. PLEASE, don't allow the Internet to be bought and sold.
Garet	Wollman	
Jack	Wolter	We really do need REAL net neutrality.
Black	Woman	
Ivan	Womboldt	
Amy	Wong	a sign of true democracy is open net neutrality where regardless of income everyone has the same access to information.
Timothy	Wong	
Chris	Wood	I believe that it is absolutely essential to preserve the internet as truly neutral where an even playing field and even access to information exists. If you sell out to the big money firms and kill true net neutrality it will be on your conscience.
Mark Anthony	Wood	If the FCC's plan to allow fast lanes for the few goes forward, the rest of us will suffer. The deep-pocketed will pay to move their online content at top speed, consigning nonprofit, independent and dissenting voices to the slow lane.
Don	Wood	Keep my ability to use the internet fair.
Rick	Wood	Please do not allow the sales of fast lanes to go forward. We need real net neutrality.
Lorraine	Wood	Please do not let corporations control the net by buying faster speeds and to control how we use the internet!
David	Wood	Please keep the internet equal as it was intended. If some corporate users gain more speed & control than everyone else, it lessens access for me and the innovation necessary for our true freedom. Please don't give it away!
Vivian	Wood	Please save the free and open internet with equal access for all.
Stephanie	Wood	Stop selling this country's resources to greedy capitalists!
Don	Wood	This video by Internet Citizens: Defend Network Neutrality http://youtu.be/wtt2aSV8wdw explains many reasons why Net Neutrality is important.

Colin	Wood	
Monica	Wood	
Trilby	Wood	
Linda	Woodall	We need REAL net neutrality.
Sarah	Woodard	Americans need an open and accessible Internet. Protect our communications for the benefit of individuals.
J.R.	Woodbury	Please do not continue in the trend set by the Supreme Court, i.e., eliminating civil liberties. If you respect freedom of expression, do not sell the rights allegedly guaranteed under the First Amendment to the highest bidder.
Derrick	Woodham	
Cate	Woodruff	
Doug	Woods	Leave the Internet open. It is not broken, so you don't need to fix it. You have already heard from 3 million plus citizens of this country. Do our bidding, not the bidding of the corporations you worked for before you took your revolving door FCC job.
R. Susan	Woods	There is no grace in controlling others, None.
Billy	Woods	
David	Woods	
Jan	Woods	
Kate	Woods	we need net neutrality!
Byerly	Woodward	Keep internet equal for all.
Cathi	Woodward	regulate the internet as a common utility, equal access for all.
Ralph	Woodward	
Linda	Woodward	
Patricia	Woodworth	Please keep the internet equal for all of us. It works well now.
Ken	Woolard	
David A.	Woolsey	
Rachael	Wooten	Democracy as we know it is already in dire straits because of the influence of dark money on our electoral process. The internet is one of the ways the playing field remains even remotely balanced. Giving the internet to big money only makes that worse
Stephen	Wooten	
Chris	Worcester	
Wickard	Workman	The internet should be a level playing field and content providers should NOT be allowed to pay for higher speed service.
Lisa	Wormwood	
Rachel	Worrell	
Shirley	Worth	Net neutrality is as important as public roads. Please do not put control of the internet into private hands.
Al	Worthing	
Fay	Wouk	
Steve	Wozniak	
John	Wright	Don't let the major Com-Companies screw us little guys! ! ! ! ! ! ! !
Terry	Wright	I didn't help invent high-speed broadband Internet just so a few large telecom firms could leverage the performance capacity at the expense of everyone else. Leave the Internet alone!
Jon	Wright	Please act to preserve a truly neutral internet on behalf of the PEOPLE, and do not allow corporations to decide who deserves better access.
Sam	Wright	Please do not let this atrocity happen. Keep the net open and neutral - not subject to the highest bidder!
Marian	Wright	Please don't further erode our rights of equality.
Wyit	Wright	The growth and success of the Internet is due to its openness. Unequal access (ie, "fast lanes") makes second class citizens out of most of us and serves only to enhance the profitability of the cable/telecoms.Stifles innovation.Terrible idea
Susan	Wright	There should be one rule for everyone.
Edmund	Wright	
Sydney	Wright	
Stephen	Wright	
Katherine	Wright	
Marilyn	Wright	
Chadwick	Wright	
Sandra	Wright	We all need the same access to the internet.
Shawn	Wrisky	

Maria	Writesel	Please uphold your mission of "Revising media regulations so that new technologies flourish alongside diversity and localism". Fast Lanes for the wealthy promotes neither diversity nor localism. Keep the internet field level.
Mimi	Wrobel	Absolutely the need for preserving net neutrality should trump the financial interests of a few powerful corporations; please do not allow us to lose the critically important national asset of real net neutrality. Thank you!
Kathleen	Wroblewski	
Sarah	Wu	
Carol	Wuchter	protect fairness for all.
Ellery	Wuest	
Richard	Wulliger	
Kelley	Wyatt	Maintaining a free and open Internet is critical. Access to the Internet must not be determined by how much money or power we have. Save the Internet from big telecom domination!
Scott	Wylie	Apply good ethics and stop the formation of monopolistic corporations who always destroy fair competition, drive up prices and further increase the divide between the 1% and the rest by enabling the wealthier to have access to faster online speeds.
Diane	Wynne	
Brenda	Wyrick	We need an open internet.
Gail	Xandy	We seem to be on a slippery sloop where the rich get richer and the poor get dumber. Information and knowledge are the only hedge against poverty is an open free internet.
Ruth	Yacko	
Brent	Yamada	No Fast Lanes, Period! The Internet is meant for everyone to be used to look and say what they want to, not controlled by The Man!
Lea	Yancey	
Rev. Mindy	Yanish	If you put this power into the hands of these corporations, instead of letting the internet remain free and equal, you are putting a gag and a blindfold on us while being complicit with them robbing all of us. Be a commission for freedom and fairness.
Steven	Yanoff	The FCC needs to protect Americans' access to the internet.
Letitia	Yarborough	What has happened to the US that you would even consider giving our internet to corporations?
Jon	Yarger	Save the internet!
Suzanne	Yaroch	
Nancy	Yarosis	If you end net neutrality , as far as I'm concerned you encourage corporate greed.
Thomas	Yasaitis	Keep the net neutral and open for all.
Jane	Yater	I support net neutrality and strongly oppose any changes that allow faster service for those who pay more. The internet was developed with taxpayer funding and should serve the public without preference to those with money.
Joan	Yates	
Mikail	Yazbeck	
Curt	Yeager	the cable companies already have a monopoly on TV and Internet access. You are just giving them more control. Do not do this!
Will	Yeager	
Peggy	Yeagain-Williams	
Dennis	Yee	
Jeffrey	Yeo	I urge the FCC commissioners to protect net neutrality. In particular, I urge the commission to classify the internet as telecommunications with the associated consumer protections.
Jim	Yerger	
John	Yerges	A few major corporations already own every broadcast news outlet in the USA, Now they want the internet too. Et tu FCC?
Mike	Yinger	
Kathryn	Yorke	Maintaining an open internet with equal access is absolutely a necessityLet's not sell to the highest bidder.
Lane	Yoshiyama	Please keep the internet free and open.
Donald	Yost	
Sam	You	
Frank	Young	Although I get a lot of junk there are important messages I must receive. Don't destroy that.
Sara	Young	Communication via of the internet is what is needed to maintain an informed and educated society!! The internet has broadened many people's minds and enlightened them to the world!! NOW is not the time to turn the lights off to this world of discovery!
N.	Young	NO fast lanes on the internet! Don't let corporate giant control the speed of the internet and certain websites. We should be able to roam freely on the internet.

Richard	Young	No give-aways to AT&T or Verizon or any other corporate pigs! Keep the internet free of their undue influence.
Darren	Young	PLEASE keep the Internet free and open -- giving special rights to certain large telecom and web-access providers just because they can afford it will destroy the ability of smaller entities to compete on an even field.
Robert	Young	The internet is America's last bastion of free speech and MUST be protected.
Susan	Young	This would result in loss of opportunity for those with less power or money - it is not ethical.
Richard	Young	
Stacey	Young	
Doug	Young	
Colleen	Young	
Carvonda	Young	
Terry	Young	
Oliver	Yourke	I am disgusted with the spectrum giveaways the FCC has presided over in the last 14 years. This proposed dismantling of net neutrality will give even more undeserved control to giant media companies.
Linda	Yow	This is very important to those of us who maintain contact with the rest of the world on a daily basis via the internet. It is our lifeline! Please make it a utility to keep it free and equal for all of us. Thank you. Sincerely, Linda Yow
Lawrence	Yox	
James	Yungclas	I WANT OPEN INTERNET FOR ALL, NO FAST LANE PAID USERS.
Dennis	Yurich	
Marianne	Yusavage	
Pete	Yuslum	
Jeffrey	Zabik	We need REAL net neutrality Please do not change the availability of high speed internet so that only the wealthy can afford it.
Joel	Zablow	The current proposals insure fast lanes and a multi-tier system for high paying telecom parasites. It will absolutely destroy net neutrality. The proposals are an appalling betrayal of the American public and our right to communication and free speech.
Erez	Zadok	Open and free Internet is critical to innovation, commerce, and especially education. Otherwise the US will fall behind other countries and companies would move their business outside the US where the Internet will be cheaper!
Joseph	Zaffuto	Opening the internet to the highest bidder is absolutely unamerican. That would relagate the best to the communications companies. They would have control of content. Please abandon this plan.
George	Zafis	
Alice	Zagury	The internet is the last open forum that is available to all of us, world-wide. You CANNOT hand it over to U.S. Corporate giants to manipulate as they see fit. The FCC is selling our right to free and open speech to the highest bidders.
Sandra	Zahn	
Eugene	Zajac	Equal playing field for EVERONE must be maintained. Equality and justice for ALL!
James	Zakas	The Internet is an open communication tool for America and for the world. It needs to be available to all on an equal footing. This is no place for position and power to be afforded special privileges. Equal treatment for all.
Bonny	Zanardi	It is vitally important to keep the net neutral. There should be no division of net services. That would be unfair and damaging to those who are less well off financially or to nonprofit organizations.
Michael	Zanchelli	Net Neutrality!
Leon	Zankiw	
Raymond	Zaracki	
Willow	Zarlow	keep the internet free
Alex	Zecha	
Michael	Zecher	Dear FCC: Please take action to retain the neutrality of the Internet. Do not sanction certain providers to control bandwidth. Society will lose.
Daintrie	Zega	
Felicia	Zeiger	Killing net neutrality is pushing Capitalism into the waiting arms of Fascism. Please don't do it!
Michael	Zeigler li	Please keep the internet open to all without special or enhanced internet for a limited few.
Elna	Zeilinger	We need real net neutrality. Don't let Verizon, etc. sell fast tracts and leave the rest of us left out.
Charles	Zeitler	
Bernard	Zelazny	We need REAL net neutrality. Keep the internet a level playing field for all
Opal	Zeledon	Please serve the public interest, not the special interests.
Patrick	Zelenka	Speed it up! Do not slow it down!
James	Zeman	No two-tiered system!!!!

Elizabeth	Zenker	This is linked to our Constitutional Right of Freedom of the Press... all need to have equal access.
John	Zibell	enough is enough
John	Ziegler	It is essential that the internet is truly kept upon to all and neutral. Very large companies should not be able to monopolize it! This is the only democratic way. Big money should not get its way!
Robert	Ziegler	
Dolores	Zieser	
Shirley	Zigler	
Carl	Zimmerman	It all comes down to money and now the little fish that turned in the big fish don't want a open and free Internet.. Please preserve net neutrality where everyone is treated the same regardless of how big you have now become
Craig	Zimmerman	The world wide web was created as a free and open system. If you allow these telecom corporations in the US to allow different speeds based on what an entity pays, it will harm US consumers, who have few or no telecom choices.
Jeffrey	Zimmerman	
Drew	Zingone	Net neutrality now. Net neutrality forever. Keep the internet fair for all not just the wealthy.
Erica	Zissman	Please preserve net neutrality - protect and serve the little people like me!
James	Zoellner	We need Net Neutrality to maintain healthy development of the Internet. Please do not bow to the monied interests.
Donna	Zoll	No one person or group of people should be able to control all of the worlds information. As we have seen with multinational corporation; when those guys get too big they snuff out the shelf space for the little guy. The internet belongs to all of us.
Robert	Zordich	If they want to take my share of the internet for their own uses, send me a check every . month. \$500 will do.
Gretta	Zorn	
Robert	Zucker	This is a vital issue, that is at the core of how our society now does its business...social and occupational. Do remove degrees of choice is unconscionable.
Marguery Lee	Zucker	
Mark	Zuckerman	Don't be bought off by big business.. Dont
Andrew	Zugay	
Chris	Zurn
